# TC-Log 8 USB T

Temperature data logging device up to 8 T type thermocouples connectable with miniature connectors, resistant up to 130°C. Operative range is from -60°C to 130°C.

**User replaceable battery.** No need of any extra device for PC communication, direct USB connection. Thermocouples not included.

# Food & Beverages

Sterilisation

#### **Main features**

- High temperatures resistant
- Quick response time
- USB direct connection to PC
- Reduced size
- Real time monitoring if connected to a PC via the USB interface
- User calibrable

#### Plus

- Easy to use
- You can use your own thermocouples and calibrate it with them
- Real time (when directly connected to the PC via USB cable)

## The system

System components:

- TC-Log 8 USB T
- Thermocouples
- TS Manager 3 software (compatible with the FDA 21 CFR Part 11 regulation)

#### Accessories

- TS Manager 3
- T type thermocouple

### **Technical specifications**

| Dimensions                  | 132 h X 80 X 25 (mm)  |
|-----------------------------|---|
| Weight                      | 190 g   |
| Temperature range           | -60°C ÷ +130°C  |
| Materials                   | Alumide, ABS  |
| Number of channels          | 8   |
| Mounted connectors          | т   |
| Available thermocouples     | Т   |
| Temperature resolution      | 0,15 °C   |
| Temperature accuracy        | For logger only, sensors excluded: $\pm$ 0,2 °C with Accredia traceable certificate (calibration at -40/25/125°C)   |
| Temperature accuracy        | For logger only, sensors excluded: $\pm$ 0,2 °C with Accredia traceable certificate (calibration at room temperature)   |
| Temperature accuracy        | For logger only, sensors excluded: +/- 0,5°C range 0°C $\div$ 75°C; +/-1°C range -40°C $\div$ 0°C and 75°C $\div$ 130°C without calibration                           |
| Stability time              | Internal stability after a 50°C shock: 20 minutes   |
| Memory (n. of acquisitions) | 104.855 with only 1 channel, 16.383 with all 8 channels (for complete information check proper document)  |
| Acquisition step            | From 1 every second up, with 1 second steps   |
| Battery life                | +4.320.000 acquisitions at 1 second step continuously (calculated time @25°C. Battery life may be shorter if used in low temperatures)                                |
| Battery life                | Infinite time at 1 second step continuously when connected to USB port, real time (calculated time @25°C.<br>Battery life may be shorter if used in low temperatures) |
| Battery type                | AA 3.6V Lithium Thionyl Chloride, 2Ah   |
| Software&Mobile App         | TC-Log  |
