## Battery kit for RHTemp80 L and RHTemp

RHTemp80 L, RHTemp125 L battery is easily and quickly user replaceable too. New battery kits can be purchased (each kit includes a new battery, a news o-ring that must always be replaced whenever logger is opened and substitution instructions) or the service for battery replacement at Tecnosoft, usually along with recalibration.

Note: if used below -30°C, battery life will be highly reduced.

## **Accessories**

• Universal tool for opening logger
