

S-Micro heat protection 1

Heat protection for S-Micro logger, resistant up to 300°C, protects up to 220°C (max calibrable temperature) for a maximum of 13 minutes.

It is possible to ask for extra calibration points up to 220°C for the S-Micro data loggers (the probe only can reach such temperature, the data logger maximum operative temperature will always be 140°C).

Applications

Food & Beverages

Pharmaceutical

Industrial

Main features

- For calibration over 140°C the minimum probe length is 140 mm

Technical specifications

Dimensions	39 h X 40 Ø (mm)
Weight	94 g
Minimum probe length	40 mm
Data loggers supported	S-Micro
Materials	PTFE
